Schema Information

Table: Table I.1

The table shows the voting pattern of central banks, reflecting diversity in individual members' assessments, expectations, and policy preferences.

Column:	Central Banks
Type:	text
Column:	Voting Pattern
Type:	text

Table: Table I.1

Monetary Policy Committees and Policy Rate Voting Patterns Country Policy Meetings: April 2024 - September 2024

Column:	Total meetings
Type:	integer
Column:	Meetings with full consensus
Type:	integer

Column:	Meetings without full consensus
Type:	integer
Column:	Variation in policy rate (basis points)
Type:	integer

Table: Table I.2

Baseline Assumptions for Projections

Column:	Indicator
Type:	string
Column:	MPR April 2024
Type:	string
Column:	MPR October 2024
Type:	string
Column:	Crude Oil (Indian basket)
Type:	currency

Table: Table I.3

Reserve Bank and Professional Forecasters' projections

Column:	Year
Type:	string
Column:	Indicator
Type:	string
Column:	Reserve Bank's Baseline Projections
Type:	float
Column:	Median Projections of Professional Forecasters
Type:	float

Table: Table I.2

Assumptions set out in Table I.2

Column:	Column not mentioned
Type:	N/A
Column:	Note: Column not explicitly defined, mentions assumptions set out in this table
Type:	N/A

Table: Table I.4

Business Expectations Surveys

Column:	Item
---------	------

Type:	String
Column:	NCAER Business Confidence Index (July 2024)
Type:	Number
Column:	FICCI Overall Business Confidence Index (May 2024)
Type:	Number
Column:	Dun and Bradstreet Composite Business Optimism Index (July 2024)
Type:	Number
Column:	CII Business Confidence Index (October 2024)
Type:	Number

Table: Table I.3

Professional forecasters polled in the September 2024 round of the Reserve Bank's survey expected real GDP growth

Column:	Column not mentioned
Type:	N/A

Table: Table 1.2

Baseline assumptions for domestic and global macroeconomic variables

Column:	Assumptions
Type:	text
Column:	Variables
Type:	text

Table: Chart I.9: Professional Forecasters' Projection of Real GDP Growth

Sources: Survey of Professional Forecasters, RBI and National Statistical Office

Column:	Data Type
Type:	unknown
Column:	Growth Data
Type:	unknown

Table: Chart I.10: Projection of Growth in Real GDP (y-o-y)

Fan chart depicting uncertainty around the baseline projection path

Column:	Data Type
Type:	unknown
Column:	Growth Data
Type:	unknown

Table: Chart II.7: Drivers of CPI Inflation

Sources: NSO; and RBI staff estimates.

Column:	Source
Type:	text
Column:	Drivers of CPI Inflation
Type:	category
Column:	Contribution to overall inflation
Type:	percentage

Table: Chart II.8: CPI Food Inflation

Includes meat & fish, egg, milk and pulses.*: Includes fruits, sugar, non-alcoholic beverages and prepared meals.Note: Figures in parentheses indicate weights in CPI food and beverages.

Column:	Component
Type:	category
Column:	% Weight
Type:	percentage

Table: Chart II.9

Financial Year Price Build-up (August 2024 over March 2024)

Column:	Weight in CPI - food and beverages
Type:	percentage
Column:	Sources
Type:	string

Table: Chart II.10

Cereals Inflation (y-o-y)

Column:	Sources
Type:	string
Column:	Notes
Type:	string

Table: Chart II.11

Vegetables inflation remained elevated till June 2024, but witnessed a sharp correction in July primarily because of favourable base effect.

Column:	None
Type:	N/A

Table: Table II.1

Distribution of food inflation across States/UTs

Column:	#
---------	---

Type:	count
Column:	Food Inflation Range
Type:	category
Column:	2023-24 (Apr-Aug)
Type:	count
Column:	2024-25 (Apr-Aug)
Type:	count

Table: Table II.2

Exclusion-based Measures of Inflation (y-o-y)

Column:	Period
Type:	date
Column:	CPI excluding food and fuel
Type:	number
Column:	CPI excluding food, fuel, petrol, diesel
Type:	number
Column:	CPI excluding food, fuel, petrol, diesel, gold, silver
Type:	number

Table: Table II.1.1

Content Summary

The Reserve Bank of India (RBI) publishes its Monetary Policy Report for October 2024, outlining the country's macroeconomic outlook. The report covers key developments since April 2024, inflation and growth prospects, balance of risks, and monetary policy responses to food inflation under alternative scenarios. It also examines prices and costs, demand and output, financial markets and liquidity conditions, and the external environment. Chapters include a discussion on consumption switching patterns in India, the impact of monetary policy surprises on equity markets, and recent changes in global monetary policy operating frameworks.
